Name:_____ Date:_____

Instructions

Count the total value of the money listed in each problem. Write your answer in dollars and cents.

Example

Problem: One $5 bill, three $1 bills, one quarter, and two dimes.

$$\$5 = \$5.00$$
$$3 \times \$1 = \$3.00$$
$$1 \times 25 = \$0.25$$
$$2 \times 10 = \$0.20$$
$$\text{Total} = \$8.45$$

Answer: $8.45

---

1. Two $1 bills, three $5 bills, two quarters, and three pennies.

2. One $10 bill, two $1 bills, three nickels, and one dime.
